

# PLANTS TO PLANT THIS MONTH

OCTOBER

**ANNUALS** It's cool season annuals time!

PANSIES, VIOLAS, SNAPDRAGONS, SWEET ALYSSUM, STOCK, ASTERS AND MUMS

## PERENNIALS

It's the perfect time for planting perennials! The ground is still warm so the roots can develop, but the cooler temps put less stress on the foliage. Don't expect an amazing show when first planted, think of it as planting for the future! Fall planted perennials will outshine spring planted ones all year!
